contact@muqtada.cv
Baghdad – Sadr City

PERSONAL BIO

Frontend Developer and Computer Engineering student with a history in React, TypeScript, Music, & English Writing.

Experienced in leading development teams, crafting pleasant interfaces, and delivering creative solutions across diverse projects from game jams to wide-scale platforms.

SKILLS

Front-end Development: *React, Typescript, HTML, and CSS. I have had about 3 years of experience with working in this field.*

Technical Lead: *Manage team tasks, time tables, review work and make sure quality is assured. I use a central task management platform like Trello or Clickup to handle all records of work.*

DevOps: *Setting up and securing Linux servers via Coolify, a modern, secure server hosting interface.*

Desktop Software Development: *Native CPP development, Python, and Rust.*

English Content Writing: *Extremely fluent in English speaking and writing.*

Music & Sound: *Composition skills, producing, and mixing & mastering.*

EDUCATION

Aliraqia University, Baghdad
Bachelors in Computer Engineering
Graduated 2026
Was number 4 in my year with a GPA of %80.763.

Titanium, Summer Training
Summer training degree
July 2025
Lead web developer and designer behind an admin panel for employees

PROJECTS

Digital Recruitment Platform
I was project lead, front-end developer, and handled server hosting for the DRP platform – where companies can brows students and hold interviews. [Check out the public version here.](#)

HR Career Roadmapper
I handled the front-end work for making an admin panel to manage employees and allow easier paths for promotions.

Blender Theming Plugin
A CPP program that mass-edits the coloring and theming of the popular 3D software Blender. Made via Python. [Check it out here.](#)

Heart. Lungs. Liver. Nerves.
Music track completely composed, produced, and mastered by me. Has over 500,000 streams worldwide. [Listen to it here.](#)
